

ON THE ROAD

CPG51 GRID-IT! Organizer by Cocoon

Find a home for your digital devices and personal effects in a 15" x 11" companion for your carry-on luggage, briefcase, or laptop bag. **\$29.99; www.cocooninnovations.com**

Front-Seat Mobile Office by Case Logic

Stay safe and organized on-the-go with front and zippered compartments, a laptop pocket, and quick-reference file sleeves—weighing in at just over 2lbs. **\$21.99; www.casellogic.com**

Neat Mobile scanner by The Neat Company

Harness up to 600-dpi-resolution scanning capabilities in less than a pound with a USB-powered portable scanner for those fly-away receipts and mobile documentation needs. **\$199.95; www.neatco.com**

ON THE WEB

www.Vitalist.com

It's simple. Get things done. Based on David Allen's "Getting Things Done" methodology, the online organizational tool acts as a virtual to-do list and organizes actions, projects, and contexts online with features like Vitalist for iPhone and mobile devices, and print, export, and iCal options. You can also use Vitalist with online social-networking sites like Twitter and share and collaborate on projects, actions, and files with other Vitalist users, such as co-workers, family, and friends. **Free**

Siri.com

Avoid filtering through the 20-somethings lined up to be your assistant—and the cost of paying them. Siri is a virtual personal assistant, helping with anything from dinner reservations to taxis to movie times. Siri may occasionally misunderstand things you ask it to do even with its range of understanding, but it is constantly undergoing improvement to eventually handle more. You can type or speak to Siri through your iPhone 3GS (iPod Touch, iPhone 3G, and more versions to come soon). **Free**

STRATEGIES FOR INDUSTRY LEADERS JULY/AUGUST 2010 43

Profile

The Leader of a Global Engineering Firm
 The Toughest Camera in Scientific Imaging
 The Partners of a 95-Year-Old Insurer

"You're only as good as your last job in this business."
 Kent Hammond, Epoxy Films
