PERK

Security Detail

“Tying up loose ends” takes on new meaning.

Never again fumble for your phone—or any of the other wayward gadgets that gather at the bottom of your carry-on. Thanks to a matrix of elastic straps, Cocoon’s GRID-IT! system makes storing miscellanea (and saving space) a cinch: Simply lift and tuck. Customize the configuration that works best for you, then slip it into your suitcase. GRID-IT! stands up to a good shaking, so you’ll have no worries about objects shifting during flight. Still not satisfied? Opt for the line’s Wrap series, which includes a neoprene sleeve for your laptop or tablet, or Cocoon’s supremely svelte SLIM Backpack, featuring a 3.5-inch profile and an extra large GRID-IT! \$10–\$80; cocooninnovations.com

APP

Morning Wake up on the right side with this iPad app designed to streamline your a.m. routine. Prefer the weather forecast with your coffee? A glance at the news of the day? Morning allows you to create a customized dashboard, including reminders, a traffic report, stock data—even a countdown to that well-deserved vacation. \$4; iPad
